OT-100 Order Terminal

Order Taking with efficiency and style

The OT-100 is a revolutionary new product specifically designed for the hospitality market, with its cutting edge styling this small and discreet unit is a fantastic mobile ordering terminal.

The OT-100 is a touchscreen wireless ordering terminal which is designed specifically with mobility in mind for waiters / bar staff to carry around instead of a notepad.

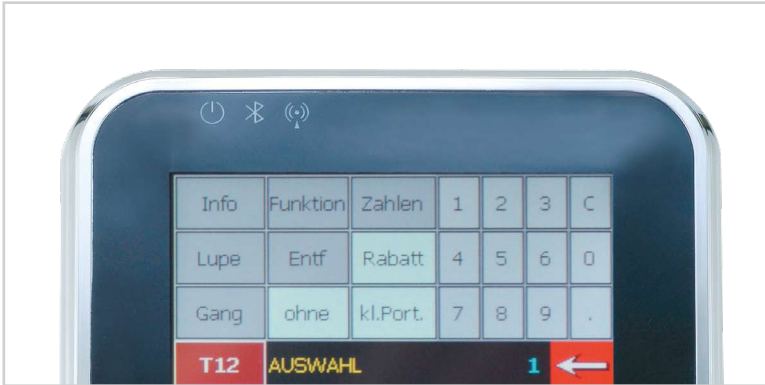

With over 65 hours standby, the OT-100 has an intelligent power management. That means to be more efficient, more profitable and faster.

Outside of the traditional restaurant environment, mobile order taking can be applied to an array of vertical markets such as sporting events, music events, corporate hospitality, leisure clubs, night clubs, VIP lounges, stock taking, etc.

Special Features:

- 4.3" Widescreen Touch LCD
- Vibration alert
- 4-way direction sensor
- IP54 protection class
- 1.2 meter drop tested
- Wireless communication:
W-LAN and Bluetooth

OT-100 Order Terminal
